PROFESSIONAL SUMMARY

Computer Science Engineering graduate (2025) with hands-on experience building full-stack web applications using Java, Spring Boot, Spring Security, MySQL, and React. Delivered two end-to-end systems covering REST API design, JWT authentication, role-based access control, and responsive UI development. Resolved N+1 query bottlenecks and enforced precision-safe financial calculations in a production-style SaaS platform. Seeking an entry-level Java Full Stack Developer role.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering | Sri Venkateswara College of Engineering (SVCE), Chennai | 2021 – 2025

TECHNICAL SKILLS

Languages: Java, JavaScript, C++
Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT
Frontend: React, HTML5, CSS3, JavaScript
Database: MySQL
Core Concepts: Data Structures & Algorithms, OOP, DBMS, RBAC, API Security
Tools & Platforms: Git, GitHub, Maven, Postman, Cloudflare Tunnels

SOFT SKILLS

Problem Solving, Analytical Thinking, Time Management

PROJECTS

SaaS Chit Fund Management System — Full Stack Developer | Aug 2025 – Feb 2026

Technologies: Java 17, Spring Boot 3, Spring Security, Spring Data JPA, Hibernate, MySQL, JWT, React 18, HTML5, CSS3

- Designed a production-style SaaS financial platform using a layered Controller-Service-Repository-DTO structure to manage chit groups, enrollments, and payment tracking.
- Implemented stateless JWT authentication with Spring Security and role-based access control (RBAC), separating Admin and Staff permissions across all API endpoints.
- Resolved N+1 query bottlenecks in Spring Data JPA using FetchType.LAZY and applied BigDecimal precision to eliminate floating-point errors in financial calculations.
- Built a responsive React single-page application featuring a real-time analytics dashboard and a Day Book for tracking daily credits and debits.

LearnSphere — Enterprise E-Learning Platform — Full Stack Developer | Mar 2025 – Jun 2025

Technologies: Java, Spring Boot, Spring Security, JWT, MySQL, HTML5, CSS3, JavaScript, REST APIs

- Built three role-based portals — Admin, Instructor, and Student — each with a tailored workflow and UI on a single Spring Boot backend.
- Developed a REST API layer to manage Users, Courses, Lessons, Assignments, Enrollments, and Submissions, backed by Spring Data JPA and MySQL.
- Secured all backend endpoints using Spring Security and JWT-based stateless authentication combined with RBAC.
- Built an SPA-like frontend in JavaScript with real-time API integration and dynamic DOM updates, styled with a custom responsive CSS design system.

INTERNSHIP EXPERIENCE

Web Developer Intern — The National Small Industries Corporation Limited (NSIC) | Chennai, Tamil Nadu | Jun 2023 – Jul 2023

- Built 5+ responsive web pages using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility.
- Collaborated within a 4-member development team to deliver full-stack modules within tight project timelines.
- Restructured frontend components and backend integration points, cutting UI-related defects by ~30% during testing.

CERTIFICATIONS

- Web Development Internship — NSIC
- Web Design Course With HTML and CSS — Udemy
- The Complete JavaScript Course — Udemy
- Java — Great Learning
